MONTHLY MESSENGER

As your new president I am finding out just how much work Rollie and Joanne have done to make this organization a success. "Thanks" to both of you for your guidance in getting us started.

Thanks also goes out to the members I asked to come up with a program. We have some interesting programs scheduled, and some openings for anyone interested in giving a short demonstration, or do research on some woodworking related subject. I hope everyone will find something new and interesting in our programs, and even better, step forward and show us how YOU do things. This is how we learn.

Our next board meeting will be informally held at Coborn's Deli in Sauk Rapids at 6:15 PM preceding the regular monthly meeting. All members are welcome.

One of the nicest surprises has been the web page. This can be the best way for us to communicate between meetings. Lynn Kull has done an outstanding job of getting us on-line. At our next program for the February meeting, Lynn Kull, along with help from Ferche Millwork, will demonstrate how to use this communication tool. This will be a interactive, high tech, overhead presentation that should prove extremely interesting.

Be sure to bring some of your projects to the February meeting for us to see. We all have different skills and we can learn from each.

I hope to see you all at the next meeting on February 19th.

John Caye

Mr. Hannsen ran an efficient workshop, where everybody had to pull their own weight or they were out the door.

It particularly galled him when he spotted a young man goofing off outside the foreman's office.

After several minutes of this Hannsen could stand no more. He stepped out in front of the young man and demanded, "How much do you make?"

"Three hundred dollars a week sir," the lad replied.

Hannsen took out his wallet and counted out some cash, "Here's two weeks pay, get the hell out of here and don't come back."

No sooner had the surprised young man left the shop when the foreman returned from fixing the band saw.

"Howdy, Mr. Hannsen," he remarked, "Band saw's all fixed now. What happened to the kid from the deli? I told him to wait here for our lunch order."
